## CANADA

**GRADE & CONDITION:** Three categories are employed for **UNUSED** and three for **USED**. "VF" is for very fine or better centered material after the year 1893, before this some will run fine to very fine. The second category is "FINE" and all stamps after 1893 will be at least fine with the perforations clearing the design in this category. Before 1893, stamps will have normal centering, which will range from average to fine depending upon the particular issue. "S/D" is for stamps with small defects or repairs but of a generally fine appearance. After 1893 all fine and very fine stamps will have original gum and are usually lightly hinged. Those with "nh" before the price and most modern issues are never hinged, "ng" indicates no gum.
